16 3 the process of speciation answers - thatavarti.com

3.3.1. Monitoring charts¶. We use monitoring charts, also called control charts, to display and detect this unusual variability. A monitoring chart is a display of one value (variable), against time, or in sequence order. These time-based plots also show some additional information: usually a target value, and one or more limits lines are superimposed on the plot.

3.3. What is process monitoring about? â€” Process
