Chemical biology is a scientific discipline spanning the fields of chemistry and biology. The discipline involves the application of chemical techniques, analysis, and often small molecules produced through synthetic chemistry, to the study and manipulation of biological systems. In contrast to biochemistry, which involves the study of the chemistry of biomolecules and regulation of biochemical ...

x Dakin et al. show that perception of verticality is excessively affected by rotating visual scenes and visual noise in people with a form of genetic cerebellar degeneration. This increased reliance on visual cues strongly suggests that the human cerebellum processes vestibular signals from the inner ear for the brain to estimate which way is up.
