Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it ...

Es evidente que en los últimos años la química inorgánica ha experimentado un renacimiento impresionante. La investigación en química inorgánica, tanto académica como industrial, pasa por un período floreciente, mientras que al mismo tiempo el número de los trabajos de investigación y de las recopilaciones sobre temas específicos aumentan en forma exponencial.
