The above code snippet is quite familiar to the code snippet examined back in Steps 1 and 2: Creating the Document and PdfWriter Objects with one important difference - in the earlier example the created PDF was serialized to a file. Here, we are serializing the PDF to a MemoryStream. The reason is because rather than saving the PDF to the web server's file system, we simply want to send the ...

The Process. As shown in the reporting article, it is very convenient to use Pandas to output data into multiple sheets in an Excel file or create multiple Excel files from pandas DataFrames. However, if you would like to combine multiple pieces of information into a single file, there are not many simple ways to do it straight from Pandas.
