Pleasure is a broad class of mental states that humans and other animals experience as positive, enjoyable, or worth seeking. It includes more specific mental states such as happiness, entertainment, enjoyment, ecstasy, and euphoria. The early psychological concept of pleasure, the pleasure principle, describes it as a positive feedback mechanism that motivates the organism to recreate the ...

The summary table gives us only an approximate estimate of delay distribution so it's good to complement the table by a corresponding fine-grained chart. Traditional histograms are not very suitable for comparing multiple sets of data. Box plots are too rough. Violin plots are better, but they look quite strange for non-statisticians.. There's a better way, which is also more good-looking ...
